County Cavan Catchment Profile

Key Data for Enterprise Strategy

About this Report

- Each profile provides detailed information and indicators on a series of themes such as demographics, industry, housing and transport. Browse through the profile to get a better understanding of your local and regional market. Use the map on the opposite page to visualise the extent of each catchment.
- The profile also comes with a detailed database containing all of the source indicators. The data and accompanying graphics can be used as input to reports, presentations and other marketing material to assist in the development of a business growth strategy.

Cavan County Council

Cavan County Council is responsible for the delivery of wide range of services including the provision of infrastructural services that are necessary for the development of the physical, economic, social and cultural life of the County. Since the introduction of the Local Government Reform Act 2014, Local Authorities are also the primary driver of social, economic, and community development at local level focusing on supports that generate sustainable enterprise and jobs building a thriving local economy.

Local Enterprise Offices (LEOs)

Established in 2014, the 31 Local Enterprise Offices (LEOs) are the “first stop shop” for anyone seeking information and support on starting or growing a business in Ireland. LEOs are operated on a partnership basis by Enterprise Ireland and the Local Authorities and their parent departments – the Department of Business, Enterprise & Innovation and the Department of Housing, Planning and Local Government.

Spatial Insight Solutions

Indicators and Catchments

Indicators

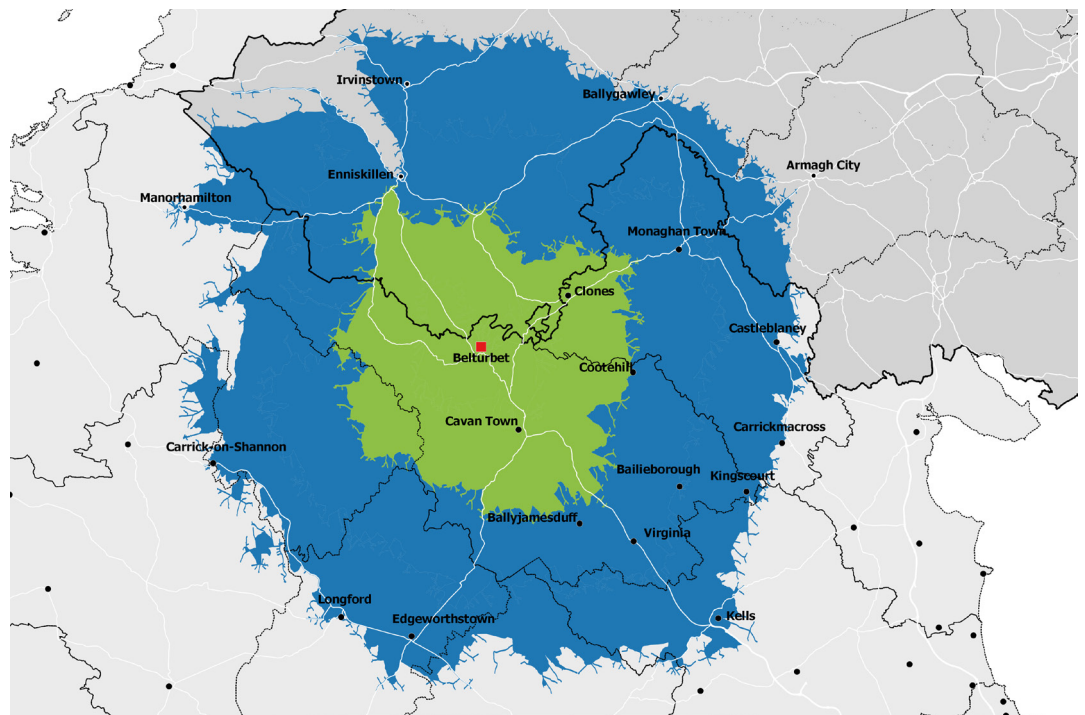

The socio-economic catchment profile (skills audit) is based on six key themes with a series of indicators representing each theme. All data is based on the latest available Census information and incorporates data from both Ireland and Northern Ireland (2016).

Each indicator page highlights the key points and provides three key graphics that illustrate the main data for either the hierarchy of geographies (settlement, 30 and 60 minutes catchment) or for the key indicators within the theme.

Geography

The socio-economic catchment profile is based on two distinct geographies. Firstly, the official settlement boundary for the town (based on Central Statistics Office definition) and secondly, a drive-time isochrone or travel catchment to each settlement. Two isochrones are represented here - a 0-30 minute travel isochrone and a one-hour travel isochrone (see green and blue areas below).
