Introduction

The Road Traffic Act 2004 (No. 44 of 2004), with effect from 20 January 2005, provides the legislative basis for speed limits. The Act introduced metric values for speed limits and also provides for:

- the adoption of new default speed limits for roads in built up areas, on motorways, rural national roads and rural regional and local roads.
- the application of Special Speed Limits through the making of Special Speed Limit Bye-Laws by the members of county and city councils.
- the broadening of consultation on proposed Special Speed Limit Bye-Laws by providing for consultation with the public.
- the issue of Guidelines by the Minister for Transport in respect of the making of Special Speed Limit Bye-Laws.

Changes in the County of Cavan

This document (*Bye-Laws No. 1 of 2020*) contains Special Speed Limits for County Cavan save for the parts of the N3 National Primary Road at Lavey and Maghera which are the subject of the Road Traffic (Special) Speeds Limits County of Cavan Bye-Laws No. 2 of 2020.

Note that housing estates will be included in this schedule in the bye-laws for the first time. Housing estates built by the local authority or built privately and "Taken in Charge" by the local authority will have a speed limit of 30 km/h. These estates are listed in Schedule Five of the Draft Special Speed Limit Bye-Laws 2020. Roads in private housing estates that have not been declared a public road are not included in these Bye-Laws.

Consultation in accordance with the 2004 Act involved:

- Notice to all Neighbouring Local Authorities
- An Garda Síochána
- Transport Infrastructure Ireland (TII)

Additional Consultation involved:

- A review of public submissions from 2006 onwards
- A review of Elected member submissions from 2006 to 2016.
- Workshops with elected members
- Workshop with Garda Síochána representatives
- Consultation with TII and their consultants Tobins Consulting Engineers
- A review of submissions from Municipal District Managers.

Under the Road Traffic Act 2004 there are four speed limits that apply on a default basis:

- The “Motorway Speed Limit” of 120 km/h
- The “National Roads Speed Limit” of 100 km/h
- The “Regional and Local Roads Speed Limit” of 80 km/h and
- The “built-up area speed limit” of 50 km/h

If the default limit is not appropriate for a particular location, a special speed limit can be created. Special speed limits are speed limits that are specified in bye-laws made by elected members of county and city councils:

- "housing estate" These Bye-Laws provide for a special speed limit for housing estates which are considered to be self-contained groupings of houses with single or multiple entry points for vehicles or local residential roads that generally do not serve as through roads within the local road network.

In relation to built-up area:

There is a speed limit (“built-up area speed limit”) of 50 km/h in respect of all public roads, other than a motorway in built-up area for all mechanically propelled vehicles.

“built up area” means the area of a city, a borough or a town within the meaning of the Local Government Act 2001.

In the case of the towns of Cavan, Belturbet and Cootehill this means that all public roads within the Town Boundaries automatically have a default “built up area speed limit” of 50 km/h.

Special Speed Limits areas scheduled in this document.

General Explanatory Notes:

Appendix 1 and 2 of the Bye-Laws Maps indicate speed zones in the following manner:

The distance covered by each Special Speed Limit is outlined in this schedule for the draft bye-laws from the centre line of the nearest road. The road is described by a road number.

For speed limits Section 5 of the Road Traffic Act 2004 sets a default speed limit of 50 km/h for ‘built-up-areas’. The abolition of Town Councils in 2014 has not affected the meaning, definition and scope of these built-up areas, thus the default speed limit for all roads within these areas remains 50km/h. Special Speed Limits are required for speed limits other than 50 km/h in these areas.

The following summarises the situation:

- Default speed limits for former town council areas remain and this boundary will be referred to as the "the built-up area speed limit boundary". This applies to Cavan Town, Belturbet Town and Cootehill Town.
- Special Speed Limits are set on the same basis as outlined in these draft bye-laws

The layout of the speed limit bye-laws has also changed. The First Schedule refers to 80 km/h Special Speed Limits, the Second Schedule refers to 50 km/h, the Third Schedule refers to 60 km/h, the Fourth schedule refers to periodic 60 km/h and the Fifth Schedule refers to 30 km/h

The bye-laws are shown in the maps (Appendix 1 and 2) for each town and village and national

road network and are displayed with the following legend

- 30 km/h zone – Green solid line (new speed limit being introduced)
- 50 km/h zone – Red solid line
- 60 km/h zone –Blue solid line
- 60 km/h periodic - Aghadreenagh National School - Blue dotted line
- 60 km/h periodic - St. Felim's National School (Leiter) – Blue dotted line
- 80 km/h zone – On National routes - Black solid line
- 100 km/h zone - On National routes Orange solid line
